KANSAS CITY (Nov. 2, 2020) — Ignite Medical Resorts has expanded its unique model of uncompromising luxury and rapid rehabilitation to Carondelet Place (Kansas City) and St. Mary’s Village (Blue Springs), both of which are accepting patients.

Ignite, which specializes in short-term rehabilitation and nursing care, offers varied clinical specialty programs and enhanced services in a five-star medical resort environment it calls LuxeRehab. The company’s dedicated team of in-house therapists use the latest technology to create customized rehab plans, helping people get back on their feet as quickly as possible.

Carondelet Place and St. Mary’s Village are now known as Ignite Medical Resorts. They will retain their faith-based missions, maintaining their chapels and services to stay true to organizational origins.

Ignite Medical Resorts (formerly St. Mary’s Village) will keep its hybrid model of all-female memory care, assisted living and skilled nursing facility while integrating Ignite’s LuxeRehab guest experience.

“Our model of rapid recovery in an enhanced environment of hospitality and comfort brings excellence to these two facilities,” said Tim Fields, CEO and co-founder of Ignite Medical Resorts. “We look forward to working with the existing health care teams and infusing the Ignite spark to these locations.”

Capital improvements and renovations are planned for the coming months. Guests at each location will soon enjoy an in-house coffee shop serving Starbucks coffee, a renovated lobby, enhanced therapy gym and upgraded décor and amenities.

Ignite now operates five facilities in the Kansas City metro area. The organization's positive employee culture and hospitality programming are key to creating an environment of recuperation, Fields said.

"Our goal is to help guests quickly get their spark back and return home to their loved ones," Fields said. "We look forward to bringing our enhanced environment of engaged employee culture, a hospitality-centered focus and superior rehabilitative nursing and therapy care to Carondelet and St. Mary's."

About Ignite Medical Resorts

Ignite Medical Resorts operates ten locations in Illinois, Missouri, Kansas, Oklahoma and Wisconsin. The organization's model of LuxeRehab™ combines uncompromising luxury and rapid rehabilitation, coupling the amenities and décor of a fine hotel with clinical programming for orthopedics, stroke, cardiac and respiratory care to return guests back home as quickly as possible.
